## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office action is responsive to the Request for Continued Examination (RCE) filed under 37 CFR §1.53(d) on 2/21/06. Applicants have properly set forth the RCE, which has been entered into the application, and an examination on the merits follows herewith. The Examiner acknowledges Applicant's amendments including canceling of claims 1-46 and addition of new claims 47-80 to better specify the present invention. Claims 47-80 are allowed.

### ***Response to Arguments***

2. Applicant's arguments, filed 2/21/06, with respect to the cited references not teaching the features of the claims 47-80 have been fully considered and are persuasive.

### ***Allowable Subject Matter***

3. Claims 47-80 are allowed.

4. The following is an examiner's statement of reasons for allowance: The independent claims 47, 61 and 75 teach generating presentation data by partitioning the image data and further including specific data related to a master slide, first and second masks that have not been previously taught. There are prior references that teach generating presentation data through first and second images that are then compressed and decompressed but these references do not teach a specific step including a master slide, first and second masks. U. S. Publication 2001/0013045 (Loschky) discloses removing unnecessary data and reducing file size by using templates for presenting the

data. Loschky further does not disclose details related to the master slide, first and second masks and manipulation of these masks for transmitting data that is of reduced size to another device for presentation. U. S. Patent No. 6,055,229 (Dorenbosch et al.), herein referred to as Dorenbosch discloses compressing data and providing presentation data to a wireless device where, the formats for the presentation data are based on user presentation formats, where Dorenbosch does not teach details related to a master slide, first and second masks and further manipulation of this data for transmitting and presenting data through a handheld device. U. S. Publication No. 2002/0034721 A1 (McManus et al.), herein referred to as McManus teaches providing compressed presentation data to a device with this presentation data displaying a slide show where data is compressed but details related to a master slide, first and second masks are not taught. The references teach methods for providing reduced size information for further presentation but does not disclose details related to how this data is handled, transmitted and further manipulated to provide the presentation to a handheld device as is taught in the present claims in reference to a master slide, first and second masks, nor do the teachings in these references make it an obvious teaching for the details taught in the claims on the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. Responses to this action should be submitted as per the options cited below: The United States Patent and Trademark Office requires most patent related correspondence to be: a) faxed to the Central Fax number (571-273-8300) b) hand carried or delivered to the Customer Service Window (located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), c) mailed to the mailing address set forth in 37 CFR 1.1 (e.g., P.O. Box 1450, Alexandria, VA 22313-1450), or d) transmitted to the Office using the Office's Electronic Filing System.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Namitha Pillai whose telephone number is (571) 272-4054. The examiner can normally be reached on 8:30 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca can be reached on (571) 272-4048.

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-2100.
